

About Exercise is Medicine

The EIM on Campus Team

Meet our Exercise is Medicine Team consisting of dedicated healthcare providers and exercise specialists from the University of Hong Kong. As unique as we are individually, we share a mutual passion for an active lifestyle through sports and exercise and believe that physical activity is integral to health and wellbeing. Through the Exercise is Medicine initiative we strive to encourage others to obtain the healthy benefits of a regularly active lifestyle and work together toward improving the health and well-being of the HKU campus community.
